MODEL ANSWERS · RESPOSTAS-MODELO

Describe your ideal working life — where, what, with whom?

✓ In my ideal working life, I'd work from a studio with big windows, somewhere between the city and nature. I'd work on projects that have a real social impact — education, community development, or environmental design. I'd collaborate with a small, passionate team where everyone feels heard.

If you could live anywhere in the world, where would it be and why?

✓ If I could live anywhere, I'd choose Lisbon, Portugal. It's a city where old and new coexist beautifully, where the food is amazing, the people are warm, and the pace of life feels human. I've already visited twice and it felt like home immediately.

Tell me about a time you did something because it seemed 'practical' — not because you truly wanted to. How did it turn out?

✓ When I finished school, I chose to study business because everyone said it was practical. I spent three years studying something I didn't love. In the end, I switched to design, which is what I had always wanted. I should have listened to myself sooner.

What advice would you give to a younger version of yourself?

✓ I would tell my younger self to stop worrying about what other people think. I would say: be curious, take risks, and remember that the things worth doing are usually the ones that scare you most. I also should have learned English sooner — it would have opened so many doors.
