MODEL ANSWERS · RESPOSTAS-MODELO

Where do you see yourself in five years? Give an honest answer.

✓ In five years, I see myself working in a role where I use English every day — maybe in international business or remote work. I'd love to have travelled to at least five new countries by then. Honestly, I just want to keep growing and never feel stuck again.

What's one thing you wish you had done differently in your learning journey?

✓ I wish I had started speaking earlier instead of just studying rules silently. If I had practised conversation from the beginning, I would have built confidence much faster. But hindsight is 20/20 — at least I know better now!

Think back five years. How has your life changed since then?

✓ Five years ago, I used to be much more shy and unsure of myself. I would avoid speaking English because I was afraid of making mistakes. Since then, I've grown so much. I've learned that mistakes are just part of the process.

If you knew you couldn't fail, what would you do with your life?

✓ If I knew I couldn't fail, I would start my own business doing something creative. I'd probably combine my love of languages with technology — maybe build an app or a platform. I wouldn't worry about money or other people's opinions at all.
